Attorney for Applicant
JACK ING JENG

PATENT

**U.S. Department of Commerce
Patent and Trademark Office**

Application No.: 10/603,460
Filing Date: 06/25/2003
Inventor: Jeng, Jack Ing
Art Unit: 3661
Attorney Docket No.: 03-6067
Title: An electronic circuit system named Mobile
Safety Communication (MSC) device
embedded in the rearview/side mirror of a
vehicle

RESPONSE to
Ex Parte Quayle Action
dated 01/13/2005

Patent Examiner:
Christine M. Behncke

Commissioner for Patent
PO Box 1450
Alexandria, VA 22313-1450

Dear Sirs/Madams:

In response to an office Action from Examiner Christine M. Behncke dated
01/13/2005, dealing with formal matters, our responses are as follows:

///

///

///

///

Response to Ex Party Quayle Action dated 01/13/2005

Responding to items in 01/13/2005 Office Action:

1 - 6: No need to respond.

7. Applicant agreed with Examiner's statement that Figures 1, 2, and 3 should be designate as -- Prior Art --. Replacement sheets for said 3 figures are attached herein.

8. No new action is needed, since element 697 was already taken out in the replacement drawings submitted by Applicant's 10/12/2004 Response.

9. Elements 612 and 620, referring to alternative positions on the windshield, as opposed to positions 608, 610 and 614. However, elements 612 and 620 can be removed, as per Examiner's objection. Replacement sheet for Figure 8 is attached herein.

10. Many parts or elements described in Specification are not exhaustively reflected in the drawing figures. This is very commonly found on many patents and patent applications. The fact that Figure 21 has no element 777 in it does not affect current application's "enablement" level or other required disclosure. In fact, at line 21, page 31, the explanation, as pointed out by Examiner, on Figure 21 was about "USB host outlet of MSC" connection. Applicant wrote other "host outlets" many times in the application without giving them numbers.

Applicant submits that no change is needed with regard to Figure 21.

11. Applicant agreed with Examiner's Objection and attached herein a replacement sheet for Figure 22, adding elements 842 and 844 as per the description in Specification.

12. No need to respond.

///

///

///

///

///

///

///

1 With the foregoing amendments, it is submitted that the present application is in
2 condition for issuance, and such action is requested.
3

4 Dated: March 7, 2005

Respectfully,

6 By:
